## Madrid Transport Tips

### **Aerocity**

Tel 900-713-583

Only for the airport. Call ahead for pickup, can order the day before. In Barajas terminal 1 their booth is outside arrival hall 2. In terminal 2, their booth is between arrival halls 5 + 6: may have to wait a bit if vans are all busy or if van not full. Like vans in the US, you will probably share space with other people so plan time accordingly.

Biggest advantages of this service: flat per person fee, so no danger of getting the taxi runaround sometimes given foreigners (if several people for same pickup and dropoff not necessarily double the per person fee). Big vehicles so if you have a mass arrival / departure or lots of luggage everybody fits in one, again with special price.

### **Comunidad de Madrid public transportation web**

[www.ctm-madrid.es](http://www.ctm-madrid.es)

Very useful website that tells you how to get from point A to B on public transportation, within the city and also on regional buses or short-run train lines. ONLY FOR MADRID, won't tell you how to get to Toledo! Site is sometimes slow or clunky but that may be partly my software / server. They have an "English version" which I haven't explored fully.

## Thank you

Last month, I wrote in asking for gynecologist recommendations. Within days, I received many caring and thoughtful suggestions. A heartfelt thanks to all who called or sent me an email. I am listing below the recommendations. It is such a privilege to be a part of this community. Gob bless, Rebecca Baird.
